

Hand Sanitizer EA

Product code: SP-1030

Description

Nova Hand Sanitizer EA is formulated and manufactured in accordance with World Health Organization (WHO) directives for alcohol-based hand sanitizer products for the (COVID-19) public health emergency. It contains 80% v/v ethyl alcohol and glycerin as a moisturizing agent.

Need / Usage

Our hands commonly come into contact with surfaces that could be exposed to others that may be infected with human pathogens such as influenza and Corona viruses. Doors containers, utensils and other surfaces can be a source of spreading disease. Nova Hand Sanitizer EA should be used to sanitize hands after contact with surfaces that could be subject to contamination from others.

Directions

Hands should be free of excessive dirt and foreign substances. Apply a small amount of Hand Sanitizer EA, enough to thoroughly wet both hands. Apply with sprayer or squirt applicator to one hand and rub hands together to thoroughly cover both hands.

Technical Specifications

Flash Point	60° F
VOC	5.27 lb./gal.
Specific Gravity	0.85
Vapor Pressure	40 mmHg
Density	7.1 lb./gal.
Odor	Alcohol
Solubility in water	Miscible
Color/Appearance	Colorless/Clear
Drying speed	Fast
Flammability	Flammable

Features

1. Complies with WHO recommendations
2. Contains 80% V/V ethyl alcohol
3. Contains no unspecified inactive ingredients
4. Contains glycerin as skin moisturizer
