

N-280

Premium Blanket and Roller Wash

Description

Nova N-280 was formulated to be the premium, water-miscible blanket and roller wash product for use in sheetfed and web-cleaning applications. It is a special blend of solvents and emulsifiers, formulated so that when mixed with water, cleaning performance is not sacrificed. N-280 is recommended to use to eliminate the build-up of paper lint piling.

Product Need and Usage

N-280 offers the printer the best possible performance on difficult to clean blankets and rollers. It has the extra cleaning power for heavy piling, yet is friendly and economical to use, is compatible with press elastomers and equipment, and is compliant with environmental regulations.

Directions

Blankets: Apply N-280 to water-dampened cloth, wipe blanket until ink is removed. For best results, follow with a water-dampened cloth to remove all residual contaminants. Alternately, add 20% to 50% water to N-280 wash in a wash-up bottle. Shake well before using.
Rollers: Apply N-280 directly to rollers, engage wash-up blade, allow ink to run off and repeat until ink is removed.

Features

- * Efficient removal of blanket piling, minimizing down time.
- * Non-damaging to blankets and rollers.
- * High flash point.
- * Pleasant odor.

Technical Specifications

Drying Speed	Medium
Water-Miscible	Yes
Flash Point (°F TCC)	105
VOC (lb/gal method 24)	6.60
Vapor Pressure (mm HG)	0.2
Odor/Fragrance	Citrus
