

New Product Announcement

Nova Pressroom Prod is pleased to announce the release of Nova's new FOGRA approved product for KBA UV press equipment

N-367UVA

FOGRA UV Wash for KBA Automatic Wash Systems

Nova N-367UVA is a special blend of solvents designed to work on ultraviolet, electron beam and hybrid cure inks.

It contains no aliphatic or aromatic hydrocarbons and is non-damaging to EPDM rollers. It is also compatible with hybrid composite, and buna-nitrile roller compounds. It has a flash point of 165°F and is compatible for use on automatic wash systems. FOGRA approved for KBA Sheet-fed Presses. Note not approved for Cleantronic equipment.

Nova Pressroom Products is a full line manufacturer of pressroom chemical products including water-based aqueous coatings, UV coatings, fountain solutions, alcohol substitutes, blanket and roller washes, silicone emulsions, specialty products, and press oils. Based in Jacksonville FL, Nova products are available through a network of dealers in the United States, Canada, Latin America, and Asia.
