The Best Solution

This innovative mixing and distribution system from **MDS** brings a much higher level of consistency and efficiency to the management of consumables in your production area.

- ▷ Eliminates the risk of product falling out of suspension from lack of mixing.
- ▷ Stirring design helps to control foaming products.
- ▷ Quick disconnects provide an easy and clean means to change products.
- ▷ Automated mixing assures consistent blending of products.
- ▷ Stainless intake filter screen helps to keep foreign material out of process.
